

THE CITY.

RIVER AND STEAMBOAT NEWS.
A CASE OF GREAT INDIGNATION.—We are pleased to inform our readers that many were hosts of a vicious thought? Michael Cummings has so far overcome the indignation with which he was seized upon seeing his name mentioned in the *Press*, as a prospective candidate for Police honors, as to blushingly accept the position of Chief of Police. As the author of this article, however, I do not doubt that he will be called to account for his conduct, yesterday morning, his "indignant" pronouncements in the *Press*, in order to prepare the community for the shock of his refusal. He "indignant" deserves to be called, for the fact that "Mr. Cummings" Chief of Police, "he was not a candidate for the office, and would not accept it if tendered to him." One would have naturally supposed that Mr. Warren would have received such a name as "indignant" with pleasure. But when he had bailed over, and spilt himself about with virtuous indignation upon the more mention of his name in connection with that position. We understand he was approached cautiously, and when told that he was not a candidate, he was, in the most delicate manner possible, lest his gaudy sensibilities might be wounded, and even then his wrath would be greater than that he pocketed the insult, and placed his pedal-power in a thorn. The *Press* has the whole story of his name in the *Advertiser* and *Advertiser*, yesterday morning, and left for La Crosse at 10 A.M. The *Bole* will be in again this evening.

THE NORTHERN BELLE.—The *Belle* made her arrival yesterday morning, and left for La Crosse at 10 A.M. The *Bole* will be in again this evening.

THE ANTRALOPE.—This farcile little boat, which has been in the *Carver Trade* for six weeks prior to this year, greened up with her new paint, and redressed, is about to be sold, her arrival, however, having been delayed for repairs, at this date. She is commanded by Capt. George Houghton, Abram Leopold, Clerk. The Antelope will run not daily until next week, but will make a trial trip on Saturday, April 13, at 10 A.M. Highways were dull and nominal at 40¢.

POTATOES.—Market steady for prime choice, but dull for all inferior grades. Sales include about 1,000 lbs prime and choice Northure, at \$1.00 per bushel, and a small lot at \$1.12½, including the tax.

MONETARY.—The evening *Packets* of **Thompson Bros.**, Bankers and Licensed Procurers of Warrants, Revolutionary and Half-Half Warrants, etc., ST. PAUL, April 14, 1863.

GLEANS FROM OUR EXCHANGES.
The *St. Louis Democrat* of April 11th says: The *St. Louis* steamship for the State will leave for St. Paul to-day at 10 A.M.

Capt. Dick Gray's new Northern liner *Daredevil* has been fastened to the dock, and the *Antelope*, which was stolen on the shore front window. This stolen was of a very poor quality, while almost every article of it was of the finest work. The *Antelope* has been broken and in the dark and made off. He had previously, perhaps, made the position of such packages as he wished to have. The drawers of the desks in the *Antelope* room, which had been left there, were torn and mangled to pieces, and the safe was untouched. The safe was unbroken. This burglar, like all which have been committed this spring, bears marks of being the work of an unskilled and ignorant novice. Ordinary marks in sealing stones and pebbles will prevent most of these occurrences.

POLICE COURT.—The usual sameness of this institution was evidenced a trifle yesterday by the trial of Axel Jorgenson, on the charge of having assaulted Mrs. Eliza Wiles. The court, however, was not satisfied with the fact that a man had assaulted a woman, as it was to the circumstances which led to the assault.

Elias is the wife of a man whose local habitation, at present, is unknown, and probably will be so for some time to come, as he is said to be a fugitive from justice. Disregarding the "many a slip 'twix the cup and the lip" proved, Jorgenson began to issue orders with the air of a lord, and the *Antelope* was transformed into a prize ring. Jorgenson seems to have been the boxer and was also charged \$20 for that privilege, besides being bound over to keep the peace for six months. It is to be hoped that Elias is not so easily satisfied, as he was, in the winter, and looks as trim and neat as Tom Sayers remains to be seen.

AN IRISH VERSION OF THE ST. PATRICK'S DAY.—The *Irish Times* of yesterday, in its account of the St. Patrick's Day celebration, said that the *Irishmen* were one of the *Irishmen*. We do not quite quote, but there was one passage in this speech of such thrilling and transcendent eloquence—such power—such pathos—that we cannot resist repeating it.

"You may laugh, gentlemen," said the orator—"you may laugh—but, Cesar had his Brutus; James the Second had his Cromwell; George the Third had his Pitt; and as for me, give me liberty, and give me death!"

The rest of the speech was drowned in thunder of admiring applause.

THE LATE DR. REED.—The following extract from a letter from Gov. Ramsey, gives some particulars concerning the death of Dr. Reed.

"Dr. Reed died here at the United States Hotel on evening of Saturday (April 10). Mr. Knobell, his physician, and the person who was found dead in bed; that his body was being embalmed by Dr. Knobell, and that Dr. Knobell had been to New York had been telegraphed to, and would be here on yesterday."

"He had been on the very day of his death, in conversation with the Surgeon-General, Dr. Barnes, and told me he would take care of him."

THE POTATO TRADE.—The trade in potatoes has been exceedingly brisk for a day or two. The receipts by the Minnesota and Pacific Railroad alone during the past 48 hours have been no less than 1840 bushels. Nearly every wholesale grocer in our city has sent a lot to St. Louis this Spring. The *Advertiser* of Saturday night had a case of these down, consisting of 1,000 bushels, and sacks, all for the St. Louis market. The price there at last accounts was \$1.01 per bushel, including packages. Our shippers have therefore been very light, and transactions few.

MEAT.—Market steady as at No. 1, except for a slight increase in the price of hams.

ONIONS.—Quiet, and no sales reported.

COINS.—Receipts for Government use very heavy.

POTATOES.—Brisk, and firm at 50¢ for best varieties. Receipts 1,400 bushels.

ST. PAUL, SATURDAY, APRIL 18.

THE ENGLISH REBEL FLEET.

The *New York Times* of the 13th inst., says that the speeches of the Solicitor-General and Lord Palmerston, brought by the last steamer, "forbid all further doubt that there is a deliberate purpose and a settled plan on the part of the British Cabinet to violate its neutral obligations to this country."

In another place we publish a letter from the able London correspondent of that paper which gives a startling and ominous interpretation of that policy of neutrality, which has been so ostentatiously paraded on the broad placentas of the British Cabinet.

"The juggling funds

That keep us in the war, to the ear and break it to the heart."

Fourteen war steamers, iron-clads and rams, are now building in the British dockyards for the rebel government. Fifteen millions of dollars have been loaned by British capitalists to purchase their outfit. They are about to be launched upon the ocean for the purpose of breaking the American blockade—of destroying the commerce and the great cities of a friendly nation. All this with the connivance and sanction of the British Government. This is British neutrality. It is impossible to shut our eyes to the fact that we are on the eve of startling events; that the supremacy of the national fleet is about to be contested on the ocean, and the security of our harbors menaced by a fleet strong enough to cope with all our naval power.

Not only on the other side of the water, but on this also are the rebels jubilant in anticipation of this sudden and immense accession to their power. The Richmond *Advertiser* says that it will call:

"But the outrages which will follow the stroke of the iron的事实 will be greater than the thundering rush of events. *New York will soon* become a capital of rebellion, and *the whole world* will be in an uproar."

The great American people on reading our dispatches this morning, will undoubtedly be agreeably astounded by the gratifying but startling intelligence that a "diplomatist" has received unofficial information that President Lincoln intends to have Charleston re-occupied by the United States Authorities."

But was it not rather imprudent on the part of his Excellency to entrust a diplomatist with such a secret.

DEATH OF MAJOR HOWARD STANBURY.

A dispatch was received here yesterday from Madison, Wisconsin, announcing the sudden death of Major Howard Stanbury, who, for several years past, has been a resident of this city, where he was held in high esteem. His death will be deeply regretted by all who knew him, and wherever he was known. Major Stanbury was, until recently, connected with the corps of Topographical Engineers, with the rank of Captain. In this department he rendered services of great value to the country.

He was one of the pioneers in the series of scientific explorations of the great plain and mountain region west of the Mississippi, and the report of his expedition to Salt Lake is recognized as one of the most valuable contributions which have been made to the topographical literature of the nation. On account of his age and feeble health, he was placed, about a year ago, on the retired army list, but shortly afterwards received an appointment as Major in the Regular Army, and was stationed at Madison as the mustering officer, we believe, of the Government.

—Copper in great quantities has been discovered near Sherbrooke, in the eastern townships of Canada East (Lower Canada). One party, who are fortunate enough to own a few acres in which the valuable ore abounds, has refused \$200,000 for the land, which before the discovery could have been purchased at ten dollars per acre. Gold, in small quantities, has also been found in the same neighborhood.

—Gerrit Smith, with his characteristic charity, has just given \$1,000 to the New York Irish Relief Fund.

—The War Department has decided that the date of muster out of the two years' troops must be two years from the date of the muster in as regiments: that is, from the date of muster into the service of the United States.

—The Prince of Wales' tailor made him a wedding present of a handsome ring costing £300, whereupon H. R. H. sent his tailor a special invitation to be present at the marriage ceremony.

—The *National Intelligencer* learns it proper to state that the Postmaster General has found it necessary to direct the seizure of collections of defaced postage stamps, and the arrest of persons engaged in their accumulation. If this be so, persons who have already made collections had better hold them as of little value, and perhaps devote them to destruction at once. It will be remembered that during last year immense collections of defaced stamps were made ostensibly for the purpose of manufacturing paper money. The real object, however, was concealed. Careful handling and delicate chemical agents would soon restore many of these stamps and make them quite as good as new.

—It is reported in the Eastern papers that in three weeks a first-class steam corvette will be fit for service with our squadron on duty. She is no other than the famous frigate Niagara, of Atlantic cable notoriety. She is now very different in appearance from her former self. The hull bulwarks have been cut away, and instead of the high wooden side walls, a solid rail encloses the deck. The armament will be heavier than that of ordinary sloops-of-war, the strength of the vessel warranting it. She will be ready for commission in the time named.

—Wendell Phillips' advocating a Metropolitan Police, before the Committee of the Legislature, says: "During the last three years the average annual arrests in Boston for drunkenness have been 17,000—nearly one-sixth of the entire population; 30,000 have been relieved from poverty created by strong drinks. One half of the criminals in the State are found in Boston, yet we possess only one-sixth of the population. Forty-two men out of every hundred in Boston are criminals, while in the country the average is only about three out of every hundred."

—Life must be pretty fast in Chicago, if we are to judge by the following item from a contemporary: "We feel bound to deny that one of our lawyers put on his doctor, 'Gone to bury my wife; be back in half an hour.' But candor compels us to say that one of our lumbering merchants, the last sickness of his wife occurring in the busiest season, was only able to get in time for the second prayer at her funeral."

—Fernando Wood, having boasted a few days since, in a public speech, that he raised the Mozart regiment from New York, and furnished the means for its organization from his own pocket, the officers of that regiment publish a card in which they positively contradict the truth of the assertion, and at the same time denounce his principles as treason, and himself a traitor. He never furnished a man or a dollar for the Mozart regiment, but on the contrary, the Union Defense Committee did the good work.

—Colonel Forney, in a letter from New York to the *Philadelphia Press*, says: "What do you think I met last night? Franklin Pierce, neither more nor less. And looking like a bridge-room—fat, friendly, and (parson) General."

—I had not seen him for three years. Remembering his kindness to me in days gone by, and his genial nature and generous heart, I felt glad once more to take him by the hand. We spoke no politics, for we differ much, I am sorry to feel, on these troubles; but I soon saw that we did not differ on one point, viz: that there was to be no separation of this Republic."

—Governor Yule was fully aware of this state of things, and was overjoyed at the arrival of the rebel forces, and the capture of Vicksburg.

—The Lieutenant feels confident that we shall take Vicksburg, and anticipates an attack on that place in some form or other in about three weeks. He will return to his regiment on Monday. On his way he found the Fourth Regiment at

THE CITY.

SCHOOL BOARD.—The old School Board assembled last night at the usual hour. Present, all but E. Zimmerman.

REPORT OF SUPERINTENDENT.

The report of the School Superintendent for the past year was read. It shows that the schools have been carried on nine and a half months, and has been a year of unexampled prosperity. The number of students enrolled was 1,200, a gain of 200 over the previous year. There are 19 teachers employed, and the average attendance of scholars is 700. The number of children resident in the various wards is as follows:

First Ward.....	580
Second Ward.....	530
Third Ward.....	514
Fourth Ward.....	762
Fifth Ward.....	503

Total..... 2,866

These 2,866 are taught in all of the schools. The total cost of the schools the past year has been as follows:

Teachers.....	\$ 697.26
Repairs.....	43.40
Gas.....	52.00
Wood.....	696.00
Rent.....	337.03
Miscellaneous.....	741.92

Total..... \$1,536.73

This is an excess over former years of \$1,536.73.

The average cost to each scholar enrolled is \$0.17.

Last year it was \$0.19; 1861, \$0.20;

\$0.22; 1862, \$0.23. The cost of scholar is owing to the additional time the schools have been run. No special city tax has been levied the past year, the \$25 mill tax having sufficed.

REPORT OF TREASURER.

The report of the Treasurer, John A. Peckham, was read, showing that the school is on hand each, a balance of \$1,361.00. The two reports were ordered printed.

CHANGES IN TEACHERS.

The Committee on Education reported that Miss Emily P. Ogle, in the Intermediate Department in the Jefferson School, had resigned, and Miss Brewster had been appointed in her place. Miss G. H. Haslett had been appointed to Miss Brewster's place. In Washington school, Miss Dunn had been appointed to a vacancy in the Primary Department created by resignation of Miss Corbett.

ST. PAUL, WEDNESDAY, APRIL 22, 1863.

PROGRESS OF THE PURSUIT OF THE SIOUX MARAUDERS.

We are permitted to copy the following extract from a private letter from Lieut. Colonel Marshall, in command of the cavalry and infantry forces sent by Col. Miller in pursuit of the Sioux Indians, who made the attack on the Watonwan settlement. It will be remembered that Col. Marshall started on Friday morning from Mankato. His letter is dated at "Station on the South branch of the Watonwan, 43 miles southwest of Mankato, Sunday morning, the 19th." He says:

"I am just ready to start on the trail of the Indians; I have 100 mounted men; the Indians have three days the start. We are inadequately supplied—have provisions and forage for only two days, but cannot wait for more. I have but little hope of catching the red devils. I think we shall catch at Fort Ridgely. It is a fine open prairie country, where there are few places that the Indians could conceal themselves. I think we shall be out but about four days."

In addition to the above, a report of the same date was received at General Sibley's headquarters yesterday from Col. Marshall, which states that they had found the body of a Norwegian settler, named Palus Guilmard, who had been murdered by the Indians. He had been scalped, and the body was horribly mutilated.

The soldiers who were sleeping at the house of one of the settlers when the attack was made, one of whom was killed, had gone there by directions of the Lieutenant commanding, to protect the inmates of the dwelling.

Col. Marshall thinks the Indians have gone in the direction of Lake Shetek.

HORATIO SEYMOUR AND SOLID DERS' VOTING.

A Bill has been introduced into the New York Legislature by Judge Low, providing for the exercise of the Right of Suffrage in future State elections by citizens in the military or naval service of their country. Gov. Horatio Seymour, who was chosen Governor of New York in the absence of about one hundred thousand of the legal voters of that State, disdained by their devotion to the Union, has sent to the Senate a violent attack on this measure for reinstating the volunteer soldiers of New York in their rights as citizens.

The New York Bill differs from that of Minnesota in providing that any absent soldier or seaman in the national service may send his ballot to the place of voting to be polled by any body whom he may choose as his representative—under certain restrictions to prevent fraud.

In accordance with the entire course of Democratic practice whenever measures of this sort have come up for discussion, Gov. Seymour opposes the passage of the bill ostensibly on the ground that it is of doubtful constitutionality. It is the most earnest wish of his heart that soldiers should be allowed to vote—but really son—it is not quite clear that it is constitutional. And it might complicate the next Presidential election, and generate a "war of the succession" in addition to a civil war. Consequently Horatio will be bound to veto the bill.

He will, however, assent to a bill which will give the soldiers a right to vote—in 1864—after the Presidential election.

Magnanimous Horatio! Will you, though?

UNION DEMOCRATS IN THE NEXT HOUSE.

The New York Times Washington correspondent objecting to the Tribune's classification of the Members of the next House of Representatives says:

"I affirm that no Democratic caucus in the Capital can hold the New York Representatives, Stephen A. Douglas, George P. Donelson, John B. Sly, Straus, McMillan, and Storer of Illinois—not even English of Connecticut."

A Minnesota Republican who has lived for sometime in Washington, vouches for English as a good Union man, and this is so thoroughly understood in Connecticut that if he had not been nominated by the Democrats, he would be put on the Republican ticket.

GENERAL BURNSIDE has created a separate military district out of the State of Illinois, and has assigned Brigadier General Ammen to its command, with his headquarters at Springfield, where he has entered upon his duties. General Ammen is a graduate of West Point, and is said to be a thorough and efficient soldier. He will before him a pretty serious job in enforcing Burnside's order against disloyalty in the southern portion of that State.

The Hokah Chief learns that Hon. Chas. H. See has been appointed U. S. Marshall for the Southern District of Minnesota. Good, again. Mr. See is one of our first-class men.

One of the privates in the party under Lieut. Col. Marshall, accidentally shot himself through the right breast last Sunday. The wound will probably prove fatal.—Madison Journal.

TAX ON MAPLE SUGAR.

The deputy Revenue Commissioner writes to an Illinois assessor, that "the production of maple sugar is a manufacture, and liable to a duty of three per cent. ad valorem."

"Maple sugar, when compounded with other sugars or wrought into confectionery, is liable to the same tax as is imposed by the amendment to section 75 (see act of March 3d) upon other confectionery."

THE ISLAND CLIFFS—THE NEW, ETC.

presented a report on much of the Mayor's Message as related to the Claims of the Paul & Pacific Railroad, which had been referred to the Board. The question seems to hinge on the fact of whether there was an island there when the United States Survey was made, or not. He says in conclusion:

"But it is evident that the survey of the site was not at the time of the survey of the said land, in island, or not, the point to decide—but the same was not so evidently formed, by the action of the water prior to its survey—then I am of the opinion that in that case, the same has to be the basis incorporated and dedicated to the city of Saint Paul, with full power and authority to improve the same for the benefit of the public, but not in such a manner as to impede or obstruct the navigation of the Mississippi River, which River is a public highway, and disengaged by various acts of Congress, and recognized as such by the War Department."

INCREASE OF THE POLICE FORCE.

A communication was received from the Mayor, asking the Council to appropriate \$1000 to move men—three more than at present.

Alderman Beckham moved to add three more policemen to the force.

Alderman Thompson moved that they be retained for six months, and the resolution carried in this shape:

LETS

Alderman Thompson moved that wholesale liquor licenses be fixed at \$25, and retail licenses at \$10.

Alderman Gross moved to make the latter \$50.

Alderman Thompson said he wished it could be made twice as much, but it would exceed the number of the distillers.

Persons coming here from the South observed the great number of these intemperate to our disengagement, if the price were fixed high, about a third of them would disappear.

Alderman Gross thought the price were set high, they could not pay it off, but endeavor to evade the law.
